---

Chip:

It sounds like the fish group has not come to quite the level of agreement I had hoped for as of a few days ago. I am going to wait a few more days to allow a few more phone calls to occur before I try to get Ron and Chris nailed down. I will let you know next week if it looks like there is going to be a useful message that you could prime LWG with for the early June meetings. That is to say, a message that both the Siletz and the fish work group buy into.

Stan
